Standby Generators

POWERFUL. RELIABLE. UNMATCHED.

PowerProtect™ Standby Generators

Dealer Exclusive 10-Year Warranty.

Crafted with innovation and engineered to tackle any challenge, the Briggs & Stratton® PowerProtect DX Generator series offers the ultimate solution for a home's power demands. From the compact 13kW¹ model to the industry's most powerful air-cooled generator at 26kW¹, our line is backed by the most comprehensive warranty² and service network in the industry.

The PowerProtect line offers protection from power outages, increases the value of a home, and can even reduce home insurance premiums — it's an investment that keeps on giving.

Welcome to the future of home backup power solutions.

Engineered with
NGMax™

for superior power and performance

When choosing a standby generator, check the specifications closely. **Only Briggs & Stratton PowerProtect generators feature NGMax™ technology, delivering up to 13% more power on natural gas than the competition.** For homes with natural gas, Briggs & Stratton is the ideal choice.

BRIGGS & STRATTON
ENERGY SOLUTIONS

Highest Rated Power Output on Natural Gas
Engineered with NGMax for superior power and performance with convenient hookups for both liquid propane and natural gas.

Corrosion Protection
Reinforced, corrosion-resistant aluminum enclosures and bases with Dura-Zen™ coating for a long-lasting attractive appearance.

Vanguard® Commercial-Grade Engine
Designed for reliable, continuous performance—from the engine experts at Briggs & Stratton.

Eco-Cise™ Weekly Test Mode
Our short 16-second weekly test mode ensures your generator is in top operating condition while reducing noise and fuel consumption.

Flexible Installation & Maintenance
Approved for installation as close as 18" to a building with easy toolless panel removal for serviceability and maintenance.

Superior Motor Starting
Best motor starting in the industry to ensure smooth operation of your large appliances during startup. Up to 68% more power than the competition.

13kW Compact Size
The smallest generator footprint in its class. Upright design provides the smallest footprint possible so it's easier to install in tight areas. The front exhaust design allows for ultimate installation versatility.

Suitable for Off-Grid use or Demand Response Programs
Certified for non-emergency use, partner with your utility company's demand response program to receive incentives for helping reduce the overall load on the power grid.

In-House Call Support
Enjoy direct access to our US-based Briggs & Stratton energy experts whenever you need them.

Most comprehensive warranty in the industry over time.
Coverage for 10 years on parts, labor, and travel through the entire warranty period.
This extended warranty is offered to every model in the PowerProtect DX lineup - a value up to \$1,225.

Table with 5 columns: Air-Cooled DX Warranty Comparison, Mileage, Labor, Parts, Major Components. Rows include Briggs & Stratton - 10 years, Generac - 5 years, and Kohler - 5 years.

1 This generator is rated in accordance with UL (Underwriters Laboratories) 2200 (stationary engine generator assemblies) and CSA (Canadian Standards Association) standard C22.2 No. 100-14 (motor and generators).
2 See operator's manual or energy.briggsandstratton.com for complete warranty details.
3 In its named class.
4 The installation manual contains specific instructions related to generator placement in addition to NFPA 37, including the requirement that carbon monoxide detectors be installed and maintained in your home or business.
5 Of global and U.S. parts.
6 Compared to other leading home standby generators of similar power output.
